Project iAm's goal is to introduce and help facilitate early and on-going treatment by providing the necessary resources including funding, guidance, referrals and follow up to individuals and their families in our local community with Autism Spectrum Disorders. Project iAm is proud to offer a scholarship program for assessments and treatments that may not otherwise be covered privately or by other third-party funding sources such as school districts, county programs, insurance, and/or other scholarship making entities.

Applicants who meet the following scholarship program criteria and complete the Scholarship Application completely and by the deadline date, will be considered for Project iAm scholarships. Since in most cases, the applicant's parent or guardian will be completing the application, it is understood that the applicant living with ASD will be the individual receiving the benefits of the scholarship.

Scholarship Making Philosophy

Project iAm scholarships are designed to provide financial support to individuals and families affected by Autism Spectrum Disorders. **Scholarship payments will be made directly to pre-approved treatment providers, assessors or materials vendors for the applicant's needs.**

Scholarships will be allocated based on annual fund-raising activities. The Board of Directors will determine the number and amounts of each scholarship at the beginning of each term. Requests for endowments or multi-year scholarships will not be accepted and scholarship recipients must re-apply each term.
